

Public Consultation on Lacock Village Gateways

Lacock Parish Council is proposing to install Village Gateways at strategic locations to reduce traffic speed.

The survey conducted by the Lacock Traffic Survey Group (LTSG) last year highlighted the concerns of Lacock residents over the speed and volume of traffic through the village.

Village Gateways have been proven to have a statistically significant effect on reducing vehicle speed when correctly deployed.

The consultation will take the form of displaying and discussing plans with options and asking parishioners for their views and comments.

This will take place in the Manger Barn in Lacock from 10 am to 5.00pm on Sunday and Monday 1st and 2nd October.

Please come to view the presentation and let us have your views and comments.
